

# WE'RE HIRING!

## Sr. Product Owner - Belgrade

Dominion Voting is searching for a talented and passionate **Senior Product Owner** to join our team in Belgrade! This position will be responsible for acting as a proxy for our customers to define and prioritize stories, and prioritizing team backlog so as to streamline the execution of projects; define story acceptance criteria and accept stories as done once they meet the technical integrity and quality required; liaise closely with Product Managers and Software Developers, IT and Operations; and Sales.

### Responsibilities

- Assist with planning and defining epics and user stories, story estimates, story sequencing and drafting team objectives.
- Oversee the creation and update of team backlogs, team vision, roadmap and content presentations.
- Actively participate in daily scrums, planning meetings, sprint reviews and retrospectives.
- Plan and define iterations, story detail and priorities and accept all final iteration plans.
- Support acceptance test-driven development by creating and providing story acceptance criteria.
- Validate that finished stories meet the defined story acceptance criteria and accept stories as done.
- Work closely with IT, Product Management, Hardware and Configuration Management to ensure key technology infrastructure is in place for new features.
- Play a key role in preparation and execution of team demos and system demos.
- Understand the usability of our products and how upcoming stories may influence usability.
- Support Technical Publications, Marketing Sales and Operations by documenting new features and acting as a subject matter expert.

### Qualifications

- Undergraduate degree preferred in computer science or engineering.
- A minimum of 7 years of experience working as a Business Analyst and/or Product Owner/Manager or commensurate experience
- A minimum of 5 years of experience working in an Agile environment.
- Experience in the elections industry or experience with elections is preferred.
- Excellent verbal and written communication skills.
- Ability to manage projects with attention to detail
- Ability to analyze data and make determinations from it for problem resolution.
- Ability to establish and maintain business and customer relationships.
- Ability to analyze problems and identify potential solutions and preventive measures.
- Ability to travel internationally up to 10% of the time.
